Letter of Reference – Roberts Bros HVAC

To Whom It May Concern:

We are a medium sized General Contracting Firm working primarily in Southwestern Ontario on Commercial, Institutional, Multi-Residential and Construction Management projects ranging in value to \$50 million±.

Some of these projects were completed using Roberts Bros as a HVAC subcontractor. Our experience with Roberts Bros in this capacity has been very positive. We find their staff knowledgeable and well coordinated.

Project specific examples include the Valleyview Long Term Care Facility in St. Thomas Ontario (\$16 Million), and currently they are working on the Richmond Woods Retirement Residences (\$22 Million).

In view of our past experience with Roberts Bros HVAC, we would not hesitate to retain their services in the future or highly recommend them for any institutional project of similar size and complexity.

Yours very truly,

D. GRANT & SONS LIMITED
